

## MINISTRY OF CONFLICT RESOLUTION

Workshop participants will learn to transform conflict into spiritual growth and reconciliation in this introduction to pastoral mediation.

## THE LEGEND

The legend of St. Francis taming the fierce wolf of Gubbio inspires the Franciscan tradition of peacemaking. While dispute resolution professionals provide culturally relevant approaches to resolving conflict, the gifts of faith make true reconciliation possible.

## TAMING THE WOLF INSTITUTE

The Institute develops conflict management protocols rooted in Scripture and Tradition. We apply Christian spirituality to conflict using practical, faith-based tools designed for prevention and resolution of disputes. We offer education, training, mediation, consultation, and research. We address the question: "How do we bring our spiritual essence to peacemaking?"

*"This has been an incredible week. The dynamic of the course was excellent. An incredible tool for any kind of conflict." RZ*

*"Absolutely the most enlightening experience about conflict and resolution." MW*
